

96 Core Fiber Enclosure In-line Type 1 In 4 Out

Overview

Model No. TM-J108H is one of the main equipment for user access points, applied for protective connection and distribution between two or more cables. The primary function is to connect distribution cable and indoor cable in the open air. It's widely used in communication systems, cable TV, optical cable network systems and others by virtue of steady structure, good sealing performance and easy construction.

Technical Index

Model No.	TM-J108H	Color	Black
Capacity	96cores	Protection Level	IP68
Material	PC, PC+ABS,PP	Inlet/outlet	1+4
Dimension(MM)	400*Φ137	Sealing Method For Inlets	Heat shrinkable
Inlet cable port	Φ12-Φ25	Outlet cable port	Φ8-Φ21

Features

- The body is made of high quality engineering plastic with good strength;
- With good waterproof design, the fiber optical splice closure can be applied into underground and aerial.
- Be equipped with 4 splice trays (each capacity is 24 cores) (Pic#3 for details);
- Excellent fiber routing design ensures the radius curvature of the fiber well and enough fiber storage space.

Package Information

- A single weight : 1.42KG
- Carton size : 820*450*390mm
- Volume : 0.1443m³
- Packing quantity : 8pcs
- Gross weight : 18.67kg
